

Regain the freedom of your home

ACORN
STAIRLIFTS

The Acorn 120 Stairlift

The Acorn 120 Stairlift is one of the most advanced and widely used stairlifts in the world, helping hundreds of thousands of people worldwide to safely and comfortably use their stairs and enjoy their homes again.

Every aspect of the Acorn 120 Stairlift has been designed to the highest standards of comfort and safety. Our years of experience have helped us to create a stairlift that is built purely with the end-user in mind.

The Acorn 120 Stairlift is powered by a maintenance-free DC powered battery pack, which ensures uninterrupted use, even in the event of a power outage.

With a built-in soft start and stop mechanism, the Acorn 120 provides a smooth and comfortable ride every time.

Another feature pioneered by Acorn is the on-board diagnostic control panel which alerts you to any potential problems before they arise, (e.g. the stairlift has accidentally been switched off or incorrectly parked).

The Acorn 120 Stairlift has also earned the prestigious Ease-of-Use Commendation from the Arthritis Foundation, further proving how safe, comfortable and easy to use it is. When not in use, the Acorn 120 folds up, nice and easy, so that everyone can continue to use the stairs.

Also available:

- Perch Stairlift - ideal for when the user may have trouble bending at the knee. Features ergonomic support handles for added security.
- Sit/Stand Stairlift - this model combines the features of the perch stairlift with the standard lift so that users can choose to sit or stand.
- Hinged Rail - for when a standard rail may present an obstruction at the foot of the stairs.
- Outdoor Stairlift - fully weather-proofed for outdoor use.

Give your life a lift®

Enjoy the home you love

A wealth of features for your benefit

- 1 Padded seat and backrest.
- 2 Easy to use controls.
- 3 Secure safety belt.
- 4 Folding arms, footrest and seat allow easy access to the stairway.
- 5 Swivel seat - no need for twisting the body to get on and off the lift.
- 6 Lockable on/off switch allows the user to prevent others (e.g. children) from using the lift.
- 7 Diagnostic digital display informs the user of the status of the lift.
- 8 Five safety sensors on the footrest and carriage stop the lift automatically if any obstruction is encountered.
- 9 Hand-held remote controls allow users to 'call' or 'send' the lift up and down the staircase.

Dimensions

	inch	mm
A Floor to top of footrest	3½	85
B Top of footrest to top of seat	18	455
C Top of seat to top of arms	10	250
D Top of arms to top of seat back	10	250
E Width between armrests (Wide arm version)	17½ (19½)	445 (495)
F Overall width	24½	620
G Overall height	38½	975
H Length of arms from seat back	18½	470
I Length of seat base from seat back	16¾	425
J Length of footrest	12¾	325
K Width of footrest	12¼	310
L Front of footrest to stringer	21½	546
M Back of seat to stringer	½	13
N Folded width	11	280
O Minimum width required to swivel at top	25½	645
P Distance from front of rail to stringer (Wide arm version)	8¼ (9¼)	210 (235)

Specifications

Motor Power	0.25KW (USA)
Motor Output Speed	No greater than 0.15 m/s (USA)
Method of Drive	Rack and Pinion
Power Supply	24V DC (battery)
Maximum Capacity	300lbs (optional 350lbs)
Track	Extruded Aluminium
Mains Supply	120V AC, 1.5 Amp Charger
