

## RS8 Geneva Supine Bathing System

---

Height Adjustable

Fixed Height

---

The RS8 Geneva is designed to bathe highly dependent residents safely and comfortably and is compatible with a wide range of transport and lifting devices. The key-hole shape enhances patient comfort with extra room for the shoulders and arms, plus allows the caregiver closer and greater access to bathe the resident. The height adjustable model is raised or lowered at the touch of a button and allows the caregiver to work at the proper height, thus eliminating back strain. The optional Auto-fill eliminates waiting and/or observation time when pre-filling the bathtub to a pre-set level.

The smooth and soft lines of the RS8 Geneva will enhance the look of your bathing area and allow for effortless maintenance and cleaning. Featuring a full range of standard and optional features, the Geneva is designed to enhance the bathing experience for both the resident and the caregiver.

The Rane Bathing and Accessibility product line provides a unique combination of style, ease of use, comfort, and low cost of ownership.

- 100% made in the USA. Manufactured in Sparta, TN from the highest quality components and materials.
- A "Best in Class" Warranty resulting in low cost of ownership:
  - 5 years for external finishes and composite shell
  - 3 years on all moving and stationary parts
  - Lifetime warranty on the door seal
- Full set of Standard Features including an easy-to-use control panel, thermostatic mixing valve, handheld shower wand, built-in disinfection system, analog thermometer, head pillow, and 3/4" stainless steel supply lines.
- Nationwide Distribution and Customer Service.

The **built-in disinfection system cabinet** is conveniently located on the side of the tub for easy access. The lockable cabinet provides a secure place for cleaning supplies and disinfectants.

The air jets on the **CleanRane™ Air Spa System** feature spring loaded check valves for back flow prevention, which eliminates the extra step to disinfect the air lines.

## RS8 Geneva Supine Bathing System

### Standard Features

- Thermostatic Mixing Valve with anti-scald protection that dispenses 15 gallons per minute for fast tub fill.
- Battery Back-up in case of power failures (Height Adjustable model only).
- Built-in Disinfection System that is the most time-efficient solution for disinfection of the bath's external surfaces and minimizes the risk of cross-infection.
- Handheld Shower Wand for hair and upper body washing, which can be used at the same time the tub is filling.
- Analog Thermometer for monitoring tub-fill and shower wand temperatures.
- 3/4" Supply Lines constructed of stainless steel.

### Optional Features

- CleanRane™ Air Spa System with variable speeds that enhance the therapeutic and relaxing effects of bathing for the user.
- Auto-Fill is a time-saving feature that enables the caregiver to fill the tub to a pre-set level (64 gallons).

### Why CleanRane™ Air Spa System?

The CleanRane™ Air Spa System enhances the therapeutic and relaxing effects of bathing and provides a pleasant experience for the resident. Hydromassage provides millions of preheated air bubbles in the water which increases stimulation of peripheral blood circulation, reduces pain and inflammation in the joints, gently massages away dirt, and induces deeper relaxation. The hygienic and low maintenance CleanRane™ Air Spa System features 12 air jets with spring loaded check valves for back flow prevention, which prevents water from entering the air lines. Unlike most other whirlpool and air spa systems, the CleanRane™ Air Spa System does not allow water to enter the air lines, which can become a breeding ground for bacteria and mold. The highly efficient CleanRane™ Air Spa System simplifies disinfection and reduces the possibility of cross-contamination. The motor is quiet, efficient, and has a ceramic heating element that blows warm air to help maintain the water temperature and warm the surface of the tub.
