DESCRIPTION

- The most important feature is the internally sloped trough. This feature is the key to no stagnant water sitting in the trough at any time and eliminates hard water build up
- Length adjustability of drain body with use of trough extensions (5" for each side, 10" total) to accommodate drain sizes from 24" – 72"
- Height adjustability of drain cover with use of spacers for different thicknesses of finish material from 3/8" to 3/4"
- Compatible to the following kinds of waterproofing: topical sheet waterproofing (QuickDrain QTS, KerdiTM, Noble TSTM), topical liquid waterproofing (AquaDefenseTM, RedGardTM, Hydro BanTM, Ardex 8+9TM), hot mop, PolyVinyl Chloride (PVC) vinyl liner, rubber liner, Chlorinated PolyEthylene (CPE).
- Drain capacity for 2" outlet is 12 GPM in a shower pan with curb and 5 GPM in a shower pan without a curb at the entry. Drain capacity for 1.5" outlet is 9 GPM and 3.5 GPM. The actual volume is limited by the plumbing lines and P-trap.
